

# TRICA Fabric Cleaning Codes

Fabric cleaning codes suggest affordable cleaning methods for furniture. Results may vary; test a small area first. Regular vacuuming or brushing helps prevent dirt buildup. For heavy soiling, consider professional cleaning.

## Water Based Cleaner

Spot clean using the foam only from a water-based cleaning agent such as a mild detergent or non-solvent upholstery shampoo product. Apply foam with a soft brush in a circular motion. Vacuum when dry.

## Solvent Cleaner

Spot clean using mild water-free solvent or dry cleaning product. Clean only in a well ventilated room and avoid any product containing Carbon Tetrachloride or other toxic materials.

## Water / Solvent Cleaner

Spot clean using a mild solvent, upholstery shampoo, or mild detergent foam. Use solvents in a well-ventilated area, following instructions closely. Avoid toxic substances like Carbon Tetrachloride. Always pretest a small area first.

## Vacuum Only

Clean this fabric by vacuuming or light brushing only, to avoid dust and grime build-up. Do not use water-based foam cleaners or solvent-based agents, as they can cause shrinking, staining, or distortion.

## Dry clean only
